

Discover Netchex's single-source suite of HR solutions that thousands of businesses rely on every day.

Netchex offers employers way more than just payroll software. Netchex delivers HR technology solutions that are powerful, yet easy to use, which enable you to manage the entire lifecycle of your employees—from hire to retire.

Make HR's job more efficient and cost-effective. Empower employees with comprehensive and intuitive technology. And experience true customer support whenever you need it. Discover how easy it is to make Netchex part of your team.

Payroll & Tax

With multiple pay options, get your employees paid and file taxes automatically, accurately, and on time. Get more from your business by integrating payroll with all of your HR functions.

Learning Management

Get new hires up-to-speed. Develop employee skillsets. Update company-wide compliance. Diminish skill gaps and develop your workforce with consistent online education with NetLearn.

Time & Attendance

Collect accurate time from your employees with various clock-in options. Manage today's flexible workforce and true labor costs with precise reporting and customized alerts.

Performance Management

Improve your employee evaluation process with a customizable performance management solution. Track employee skills and development with detailed data over time.

Benefits Administration

Simplify the employee benefits experience, 401(k), and COBRA. Get detailed insights into your benefits offering and enable your employees to take control of their plan.

Human Resources

A comprehensive solution built to manage HR's many responsibilities. Access data instantly, find answers to tough HR challenges, and empower employees with a better experience.

Recruiting & Onboarding

Recruit and retain the best job candidates with an intelligent applicant tracking system and innovative onboarding platform that improves and simplifies your entire hiring process.

Reporting & Analytics

Gain the insights you need to make complex business decisions to better your company. Collect, analyze, and share in-depth analytics with key stakeholders.

Powerful, user-friendly technology. Personalized, people-friendly support.

Hey Susan,
It's time to get ready
for your new job!

Netchex is designed to elevate your entire organization to work better with less work. Enjoy peace of mind knowing that your employees are taken care of, while you get more time and better tools to run your business. From recruitment to retirement, your company can count on Netchex.

Single-Source Integration

While most of our competitors claim to be an all-in-one product, they are actually just a cobbled together collection of disjointed systems that don't always communicate well with one another. Powered by Payroll, Netchex is a true single-source solution for all your HR needs, including Time & Attendance, Benefits Administration, Recruiting & Onboarding, Performance Management, and more.

Powerful, User-Friendly Technology

At Netchex, we built our system to be powerful enough to run your company, yet easy enough for administrators, managers, and employees to use every day. To ensure you get the most out of the Netchex system, we provide continuous training, helpful guides, and informative webinars—plus, our award-winning customer service.

Personalized, People-Friendly Support

We offer a highly personalized service model with an innovative team-based approach. Every client is assigned a dedicated advocate backed by an experienced team that knows both you and the inner workings of your company. Together, we are ready and able to tackle your issues quickly and effectively right when you need it.

Easy-To-Understand Pricing

With Netchex, you've got options. Choose the package and services that work best for your company and upgrade to more services as you grow. We make it easy for you to get the most bang for your buck—with helpful, friendly service always included for free!
